

**CITY OF TRENTON, MICHIGAN
REGULAR MEETING
November 15, 2010**

After the Pledge of Allegiance to the Flag, the Regular Meeting of the City Council of Trenton, Michigan was called to order by Mayor Brown, at 8:00 p.m. on the above date in the City Hall Council Chambers.

Present on roll call by City Clerk Stack: Councilpersons: Baun-Crooks, Gillespie, LeFevre, McLeod, Taylor and Teifer.

Absent: None.

There being a quorum present, the Council was declared in session.

Other Officers Present: Wallace Long, City Attorney; Robert Cady, City Administrator; Chris Arnoczki, City Controller; Kelly Fedele, Assistant City Engineer; Bruce Vick, Fire Chief; Scott Church, Human Resources Director; Patrick Hawkins, Parks and Recreation Director; William Lilienthal, Police Chief, and Alan Bober, Department of Public Services Director.

MINUTES

Moved by Councilman Gillespie, seconded by Councilwoman McLeod, to approve the minutes of the Regular Meeting of November 1, 2010.

Carried unanimously.

PRESENTATIONS

CITY BEAUTIFUL AWARDS

Moved by Councilwoman Baun-Crooks, seconded by Councilman Taylor, to make the Presentation part of the regular minutes.

Carried unanimously.

Sharlene Datini, Chairperson of the City Beautiful Commission, announced the recipients of the City Beautiful Awards: Fritz Enterprises, Splashers, T.V. Deli Diner, and West and Associates.

ATTORNEY

Ordinance 743, Illicit Discharge and Stormwater Connections (2nd Rdg)

**CITY OF TRENTON
ORDINANCE 743**

AN ORDINANCE TO AMEND CHAPTER 98 OF THE TRENTON CITY CODE BY ESTABLISHING A NEW ARTICLE VI ENTITLED "ILLICIT DISCHARGE AND STORMWATER CONNECTIONS" TO REGULATE NON-STORM WATER DISCHARGES TO THE MUNICIPAL STORM DRAINAGE SYSTEM AND TO ESTABLISH METHODS FOR CONTROLLING THE INTRODUCTION OF

POLLUTANTS INTO THE MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) IN ORDER TO COMPLY WITH REQUIREMENTS OF THE NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT PROCESS AND BY ESTABLISHING AUTHORITY FOR CREATING AND ENFORCING “BEST MANAGEMENT PRACTICES”.

THE CITY OF TRENTON, COUNTY OF WAYNE, HEREBY ORDAINS AS FOLLOWS:

Section 1. Chapter 98, entitled **UTILITIES**, of the Trenton City Code, is hereby amended by adding a new Article VI entitled “Illicit Discharge and Stormwater Connections”, which shall read as follows:

SECTION 98-501. PURPOSE.

The purpose of this ordinance is to provide for the health, safety and general welfare of the citizens of the City of Trenton through the regulation of non-storm water discharges to the storm drainage system to the maximum extent practicable as required by federal and state law. This ordinance establishes methods for controlling the introduction of pollutants into the municipal separate storm sewer system (MS4) in order to comply with requirements of the National Pollutant Discharge Elimination System (NPDES) permit process. The objectives of this ordinance are:

- (a) To regulate the contribution of pollutants to the municipal separate storm sewer system (MS4) by stormwater discharges by any user.
- (b) To prohibit Illicit Connections and Discharges to the municipal separate storm sewer system.
- (c) To establish legal authority to carry out all inspection, surveillance and monitoring procedures necessary to ensure compliance with this ordinance.

SECTION 98-502. DEFINITIONS.

For the purpose of this ordinance, the following shall mean:

Authorized Enforcement Agency (AEA): City of Trenton City Engineer or its designees to enforce this ordinance.

Best Management Practices (BMPs): schedules of activities, prohibitions of practices, general good house keeping practices, pollution prevention and educational practices, maintenance procedures and other management practices to prevent or reduce the discharge of pollutants directly or indirectly to stormwater, receiving waters, or stormwater conveyance systems. BMPs also include treatment practices, operating procedures, and practices to control site runoff, spillage or leaks, sludge or water disposal, or drainage from raw materials storage.

Clean Water Act: The federal Water Pollution Control Act (33 U.S.C. § 1251 et seq.), and any subsequent amendments thereto.

Construction Activity: Activities subject to NPDES Construction Permits. These include construction projects resulting in land disturbance of 1 acre or more. Such activities include but are not limited to clearing and grubbing, grading, excavating, and demolition.

Hazardous Materials: Any material, including any substance, waste, or combination thereof, which because of its quantity, concentration, or physical, chemical, or infectious characteristics may cause, or significantly contribute to, a substantial present or potential hazard to human health, safety, property, or the environment when improperly treated, stored, transported, disposed of, or otherwise managed.

Illegal Discharge: Any direct or indirect non-storm water discharge to the storm drain system, except as exempted in Section 98-506 of this ordinance.

Illicit Connections: An illicit connection is defined as either of the following:

Any drain or conveyance, whether on the surface or subsurface, which allows an illegal discharge to enter the storm drain system including but not limited to any conveyances which allow any non-storm water discharge including sewage, process wastewater, and wash water to enter the storm drain system and any connections to the storm drain system from indoor drains and sinks, regardless of whether said drain or connection had been previously allowed, permitted, or approved by the Authorized Enforcement Agency or,

Any drain or conveyance connected from a commercial or industrial land use to the storm drain system which has not been documented in plans, maps, or equivalent records and approved by the Authorized Enforcement Agency.

Industrial Activity: Activities subject to NPDES Industrial Permits as defined in 40 CFR, Section 122.26(b) (14).

National Pollutant Discharge Elimination System (NPDES) Storm Water Discharge Permit: Means a permit issued by EPA (or by a State under authority delegated pursuant to 33 USC § 1342(b)) that authorizes the discharge of pollutants to waters of the State, whether the permit is applicable on an individual, group, or general area-wide basis.

Non-Storm Water Discharge: Any discharge to the storm drain system that is not composed entirely of storm water.

Person: Means any individual, association, organization, partnership, firm, corporation or other entity recognized by law and acting as either the owner or as the owner's agent.

Pollutant: Anything which causes or contributes to pollution. Pollutants may include, but are not limited to: paints, varnishes, and solvents; oil and other automotive fluids; non-hazardous liquid and solid wastes and yard wastes; refuse, rubbish, garbage, litter, or other discarded or abandoned objects, ordnances, and accumulations, so that same may cause or contribute to pollution; floatables; pesticides, herbicides, and fertilizers; hazardous substances and wastes; sewage, fecal coliform and pathogens; dissolved and particulate metals; animal wastes; wastes and residues that result from constructing a building or structure; and noxious or offensive matter of any kind.

Premises: Any building, lot, parcel of land, or portion of land whether improved or unimproved including adjacent sidewalks and parking strips.

Storm Drainage System: Municipal-owned facilities by which storm water is collected and/or conveyed, including but not limited to any roads with drainage systems, municipal streets, inlets, piped storm drains, pumping facilities, retention and detention basins, natural and human-made or altered drainage channels, reservoirs, and other drainage structures.

Storm Water: Any surface flow, runoff, and drainage consisting entirely of water from any form of natural precipitation, and resulting from such precipitation.

Stormwater Pollution Prevention Plan (SWPPP): A document which describes the Best Management Practices and activities to be implemented by a person or business to identify sources of pollution or contamination at a site and the actions to eliminate or reduce pollutant discharges to Stormwater, Stormwater Conveyance Systems, and/or Receiving Waters to the Maximum Extent Practicable.

Wastewater: Means the liquid and water-carried industrial or domestic wastes from dwellings, commercial buildings, industrial facilities, and institutions, together with any groundwater, surface water and stormwater that may be present, whether treated or untreated, which is contributed into or permitted to enter the POTW.

SECTION 98-503. APPLICABILITY.

This ordinance shall apply to all water entering the municipal storm drain system generated on any developed and undeveloped lands unless explicitly exempted by the Authorized Enforcement Agency. The Authorized Enforcement Agency shall administer, implement, and enforce the provisions of this ordinance. Any powers granted or duties imposed upon the Authorized Enforcement Agency may be delegated in writing by the City of Trenton City Engineer to persons or entities acting in the beneficial interest of or in the employ of the Agency.

SECTION 98-505. ULTIMATE RESPONSIBILITY.

The standards set forth herein and promulgated pursuant to this ordinance are minimum standards; therefore this ordinance does not intend nor imply that compliance by any person will ensure that there will be no contamination, pollution, nor unauthorized discharge of pollutants.

SECTION 98-506. DISCHARGE PROHIBITIONS.

(a) Prohibitions of Illegal Discharges.

No person shall discharge or cause to be discharged into the municipal storm drain system or watercourses any materials, including but not limited to pollutants or waters containing any pollutants that cause or contribute to a violation of applicable water quality standards, other than uncontaminated storm water.

The commencement, conduct or continuance of any illegal discharge to the municipal storm drain system is prohibited except as described as follows:

1) The following discharges are exempt from discharge prohibitions established by this ordinance: water line flushing or other potable water sources, landscape irrigation or lawn watering, diverted stream flows, rising ground water, ground water infiltration to storm drains, uncontaminated pumped ground water, foundation or footing drains (not including active groundwater dewatering systems), crawl space pumps, air conditioning condensation, springs, non-commercial washing of vehicles, natural riparian habitat or wet-land flows, swimming pools (if dechlorinated – typically less than one PPM chlorine), fire fighting activities, and any other water source not containing Pollutants.

(2) Discharges specified in writing by the Authorized Enforcement Agency as being necessary to protect public health and safety.

(3) Dye testing is an allowable discharge, but requires a verbal notification to the authorized enforcement agency prior to the time of the test.

(4) The prohibition shall not apply to any non-storm water discharge permitted under an NPDES permit, waiver, or waste discharge order issued to the discharger and administered under the authority of the Federal Environmental Protection Agency, provided that the discharger is in full compliance with all requirements of the permit, waiver, or order and other applicable laws and regulations, and provided that written approval has been granted for any discharge to the municipal storm drain system.

(b) Prohibition of Illicit Connections.

(1) The construction, use, maintenance or continued existence of illicit connections to the municipal storm drain system is prohibited.

(2) This prohibition expressly includes, without limitation, illicit connections made in the past, regardless of whether the connection was permissible under the law or practices applicable or prevailing at the time of connection.

(3) A person is considered to be in violation of this ordinance if the person connects a line conveying wastewater to the MS4, or allows such a connection to continue.

SECTION 98-507. SUSPENSION OF MS4 ACCESS.

(a) Suspension due to Illicit Discharges in Emergency Situations.

The Authorized Enforcement Agency may, without prior notice, suspend MS4 discharge access to a person when such suspension is necessary to stop an actual or threatened discharge which presents or may present imminent and substantial danger to the environment, or to the health or welfare of persons, or to the MS4 or Waters of the State. If the violator fails to comply with a suspension order issued in an emergency, the Authorized Enforcement Agency may take such steps as deemed necessary to prevent or minimize damage to the MS4 or Waters of the State, or to minimize danger to persons.

(b) Suspension due to the Detection of Illicit Discharge.

Any person discharging to the MS4 in violation of this ordinance may have their MS4 access terminated if such termination would abate or reduce an illicit discharge. The Authorized Enforcement Agency will notify a violator of the proposed termination of its MS4 access. The violator may petition the Authorized Enforcement Agency for a reconsideration and hearing.

A person commits an offense if the person reinstates MS4 access to premises terminated pursuant to this Section, without the prior approval of the Authorized Enforcement Agency.

SECTION 98-508. INDUSTRIAL OR CONSTRUCTION ACTIVITY DISCHARGES.

Any person subject to an industrial or construction activity NPDES storm water discharge permit shall comply with all provisions of such permit. Proof of compliance with said permit may be required in a form acceptable to the Authorized Enforcement Agency prior to the allowing of discharges to the MS4.

SECTION 98-509. MONITORING OF DISCHARGES.

a. Applicability.

This section applies to all facilities that have storm water discharges associated with industrial activity, including construction activity.

b. Access to Facilities.

(1) The Authorized Enforcement Agency shall be permitted to enter and inspect facilities subject to regulation under this ordinance as often as may be necessary to determine compliance with this ordinance. If a discharger has security measures in force which require proper identification and clearance before entry into its premises, the discharger shall make the necessary arrangements to allow access to representatives of the Authorized Enforcement Agency.

(2) Facility operators shall allow the Authorized Enforcement Agency ready access to all parts of the premises for the purposes of inspection, sampling, examination and copying of records that must be kept under the conditions of an NPDES permit to discharge storm water, and the performance of any additional duties as defined by state and federal law.

(3) The Authorized Enforcement Agency shall have the right to set up on any permitted facility such devices as are necessary in the opinion of the Authorized Enforcement Agency to conduct monitoring and/or sampling of the facility's storm water discharge.

(4) The Authorized Enforcement Agency has the right to require the discharger to install monitoring equipment as necessary. The facility's sampling and monitoring equipment shall be maintained at all times in a safe and proper operating condition by the discharger at its own expense. All devices used to measure stormwater flow and quality shall be annually calibrated to ensure their accuracy.

(5) Any temporary or permanent obstruction to safe and easy access to the facility to be inspected and/or sampled shall be promptly removed by the operator at the written or oral request of the Authorized Enforcement Agency and shall not be replaced. The costs of clearing such access shall be borne by the operator.

(6) Unreasonable delays in allowing the Authorized Enforcement Agency access to a permitted facility is a violation of a storm water discharge permit and of this ordinance. A person who is the operator of a facility with a NPDES permit to discharge storm water associated with industrial activity commits an offense if the person denies the Authorized Enforcement Agency reasonable access to the permitted facility for the purpose of conducting any activity authorized or required by this ordinance.

(7) If the Authorized Enforcement Agency has been refused access to any part of the premises from which stormwater is discharged, and he/she is able to demonstrate probable cause to believe that there may be a violation of this ordinance, or that there is a need to inspect and /or sample as part of a routine inspection and sampling program designed to verify compliance with this ordinance or any order issued hereunder, or to protect the overall public health, safety, and welfare of the community, then the Authorized Enforcement Agency may seek issuance of a search warrant from any court of competent jurisdiction.

SECTION 98-510. REQUIREMENT TO PREVENT, CONTROL, AND REDUCE STORM WATER POLLUTANTS BY THE USE OF BEST MANAGEMENT PRACTICES

The Authorized Enforcement Agency will adopt requirements identifying Best Management Practices (BMPs) for any activity, operation, or facility which may cause or contribute to pollution or contamination of storm water, the municipal storm drain system, or waters of the State. The owner or operator of a commercial or industrial establishment shall provide, at their own expense, reasonable protection from accidental discharge of prohibited materials or other wastes into the municipal storm drain system or watercourses through the use of these structural and non-structural BMPs. Further, any person responsible for a property or premise, which is, or may be, the source of an illicit discharge, may be required to implement, at said person's expense, additional structural and non-structural BMPs to prevent the further discharge of pollutants to the municipal separate storm sewer system. Compliance with all terms and conditions of a valid NPDES permit authorizing the discharge of storm water associated with industrial activity, to the maximum extent practicable, shall be deemed compliance with the provisions of this section. These BMPs shall be part of a stormwater pollution prevention plan (SWPP) as necessary for compliance with requirements of the NPDES permit.

SECTION 98-511. WATERCOURSE PROTECTION.

Every person owning property through which a watercourse passes, or such person's lessee, shall keep and maintain that part of the watercourse within the property free of trash, debris, excessive vegetation, and other obstacles that would pollute, contaminate, or significantly retard the flow of water through the watercourse. In addition, the owner or lessee shall maintain existing privately owned structures within or adjacent to a watercourse, so that such structures will not become a hazard to the use, function, or physical integrity of the watercourse.

SECTION 98-512. NOTIFICATION OF SPILLS.

Notwithstanding other requirements of law, as soon as any person responsible for a facility or operation, or responsible for emergency response for a facility or operation has information of any known or suspected release of materials which are resulting or may result in illegal discharges or pollutants discharging into storm water, the municipal storm drain system, or water of the State said person shall take all necessary steps to ensure the discovery, containment, and cleanup of such release. In the event of such a release of hazardous materials said person shall immediately notify emergency response agencies, Michigan Department of Natural Resources and Environment (MDNRE), and the Wayne County Department of Environment of the occurrence via emergency dispatch services. In the event of a release of non-hazardous materials, said person shall notify the Authorized Enforcement Agency in person or by phone, facsimile, or electronic mail no later than the next business day. Notifications in person or by phone shall be confirmed by written notice addressed and mailed to the Authorized Enforcement Agency within three business days of the phone notice. If the discharge of prohibited materials emanates from a commercial or industrial establishment, the owner or operator of such establishment shall also retain an on-site written record of the discharge and the actions taken to prevent its recurrence. Such records shall be retained for at least three years.

SECTION 98-513. ENFORCEMENT.

a. Notice of Violation.

Whenever the Authorized Enforcement Agency finds that a person has violated a prohibition or failed to meet a requirement of this Ordinance, the Authorized Enforcement Agency may order compliance by written notice of violation to the responsible person. Such notice may require without limitation:

- (1) The performance of monitoring, analyses, and reporting;
- (2) The elimination of illicit connections or discharges;
- (3) That violating discharges, practices, or operations shall cease and desist;
- (4) The abatement or remediation of storm water pollution or contamination hazards and the restoration of any affected property; and
- (5) Payment of an assessment to recover all reasonable administrative and remediation costs; and
- (6) The implementation of source control or treatment BMPs.

If abatement of a violation and/or restoration of affected property is required, the notice shall set forth a deadline within which such remediation or restoration must be completed. Said notice shall further advise that, should the violator fail to remediate or restore within the established deadline, the work will be done by the Authorized Enforcement Agency or its contractor and the expense thereof shall be charged to the violator.

SECTION 98-514. APPEAL OF NOTICE OF VIOLATION.

Any person receiving a Notice of Violation may appeal the determination of the Authorized Enforcement Agency. The notice of appeal must be received within 30 days from the date of the Notice of Violation. Hearing on the appeal before the Municipal authority or his/her designee shall take place within 30 days from the date of receipt of the notice of appeal. The decision of the Municipal authority or their designee shall be final.

SECTION 98-515. ENFORCEMENT MEASURES AFTER APPEAL..

If the violation has not be corrected pursuant to the requirements set forth in the Notice of Violation, or, in the event of an appeal, within 21 days of the decision of the Municipal authority upholding the decision of the Authorized Enforcement Agency, then representatives of the Authorized Enforcement Agency shall enter upon the subject private property and are authorized to take any and all measures necessary to abate the violation and/or restore the property. It shall be unlawful for any person, owner, agent or person in possession of any premises to refuse to allow the Authorized Enforcement Agency or its designated contractor to enter upon the premises for the purposes set forth above.

SECTION 98-516. COST OF ABATEMENT OF THE VIOLATION.

Within 30 days after abatement of the violation, the owner of the property will be notified of the cost of abatement, including administrative costs. The property owner may file a written protest objecting to the amount of the assessment within 21 days. If the amount due is not paid within a timely manner as determined by the decision of the Municipal authority or by the expiration of the time in which to file an appeal, the charges shall become a special assessment against the property and shall constitute a lien on the property for the amount of the assessment.

Any person violating any of the provisions of this article shall become liable to the city by reason of such violation. The liability shall be paid in cash or by note in not more than 12 equal payments. Interest at the rate of 12 percent per annum shall be assessed on the balance beginning on the 31st day following discovery of the violation.

SECTION 98-517. INJUNCTIVE RELIEF

It shall be unlawful for any person to violate any provision or fail to comply with any of the requirements of this Ordinance. If a person has violated or continues to violate the provisions of this ordinance, the Authorized Enforcement Agency may petition for a preliminary or permanent injunction restraining the person from activities which would create further violations or compelling the person to perform abatement or remediation of the violation.

SECTION 98-518. COMPENSATORY ACTION.

In lieu of enforcement proceedings, penalties, and remedies authorized by this Ordinance, the Authorized Enforcement Agency may impose upon a violator alternative compensatory actions, such as storm drain stenciling, attendance at compliance workshops, water course cleanup, etc.

SECTION 98-519. VIOLATIONS DEEMED A PUBLIC NUISANCE.

In addition to the enforcement processes and penalties provided, any condition caused or permitted to exist in violation of any of the provisions of this Ordinance is a threat to public health, safety, and welfare, and is declared and deemed a nuisance, and may be summarily abated or restored at the violator's expense, and/or a civil action to abate, enjoin, or otherwise compel the cessation of such nuisance may be taken.

SECTION 98-520. CRIMINAL PROSECUTION.

Any person that has violated or continues to violate this ordinance shall be liable to criminal prosecution to the fullest extent of the law, and shall be subject to a criminal penalty of \$500.00 dollars per violation per day and/or imprisonment for a period of time not to exceed 93 days. The Authorized Enforcement Agency may recover all attorney's fees, court costs and other expenses associated with enforcement of this ordinance, including sampling and monitoring expenses.

SECTION 98-521. REMEDIES NON-EXCLUSIVE.

The remedies listed in this ordinance are not exclusive of any other remedies available under any applicable federal, state or local law and it is within the discretion of the Authorized Enforcement Agency to seek cumulative remedies.

Section 2. Saving Clause. Nothing in this Ordinance or in the Code hereby adopted shall be construed to affect any suit or proceeding pending in any court, or any rights acquired, or liability incurred, or any cause or causes of action acquired or existing, under any act or ordinance hereby repealed; nor shall any just or legal right or remedy of any character be lost, impaired or affected by this Ordinance.

Section 3. Severability. Should any word, sentence, phrase or any portion of this Ordinance be held in a manner invalid by any court of competent jurisdiction or by any State agency having authority to do so for any reason whatsoever, such holdings shall be construed and limited to such work, sentence, phrase or any portion of the Ordinance held to be so invalid shall not be construed as affecting the validity of any of the remaining words, sentences, phrases or portions of this Ordinance.

Section 4. Conflicting Ordinances. All prior existing ordinances adopted by the City of Trenton inconsistent or in conflict with the provisions of this Ordinance are, to the extent of such conflict or inconsistency, hereby expressly repealed.

Section 5. Readings. This Ordinance shall be given a first reading on November 1, 2010, shall be enacted on November 15, 2010, and shall be published on or before November 28, 2010, and shall be effective November 29, 2010.

ADOPTED, APPROVED AND PASSED by the City Council of the City of Trenton this 15th day of November, 2010.

Moved by Councilman Gillespie, seconded by Councilwoman McLeod, to approve the second reading of Ordinance 743,

Carried unanimously.

(D-2)
CONTROLLER
June 30, 2010 Audit Report

Moved by Councilman Taylor, seconded by Councilwoman McLeod, to receive and place on file the Financial Report with Supplemental Information dated June 30, 2010 and the Federal Awards Supplemental Information dated June 30, 2010, as prepared by Plante Moran.

Carried unanimously.

(L-1)
ATTORNEY

Ordinance 740, Medical Marijuana Dispensaries, (2nd Rdg tabled from August 16, 2010)

Moved by Councilman LeFevre, seconded by Councilwoman McLeod, to remove Ordinance 740, Medical Marijuana Dispensaries from the table.

Carried unanimously.

Moved by Councilman Gillespie, seconded by Councilwoman McLeod, to table Ordinance 740, Medical Marijuana Dispensaries, to the February 7, 2011, Council Meeting.

Carried unanimously.

AUTHORIZED DISBURSEMENTS

Moved by Councilman LeFevre, seconded by Councilwoman McLeod, that the Authorized Disbursements, per the November 1, 2010 schedule, be approved.

MONROE BANK & TRUST: Cash Disbursements	\$329,715.37
General Fund	71,101.77
Major Street Fund	382.00
Local Street Fund	310.00
Kennedy Rec Complex	9,360.35
Library Operating Fund	1,310.10
Tax Receiving Fund	30,844.03
Special Revenue Fund	1,791.87
Grant Funds	3,158.61
D.D.A. Fund	1,326.45
SINC Fund	88.00
Water & Wastewater Fund	199,799.04
Motor Vehicle Pool	5,139.91
Restricted Self Insurance	5,192.74

Carried unanimously.

Moved by Councilman LeFevre, seconded by Councilwoman McLeod, to approve the disbursements payable in the amount of \$90.00, to Certified Alarm.

Roll Call: Gillespie, Abstain, LeFevre, Yes; McLeod, Yes; Taylor, Yes; Teifer, Yes; Baun-Crooks, Yes; and Brown, Yes.

Motion carried.

REPORTS

Moved by Councilman LeFevre, seconded by Councilwoman McLeod, to receive and place on file the Commission and Board Reports, November 15, 2010; DPS Report, October 2010; Police Department Report, October 2010; Fire Department Report, October 2010.

Carried unanimously.

Moved by Councilman LeFevre, seconded by Councilwoman McLeod, to receive and place on file the Financial Summary, October 31, 2010

Carried unanimously.

OTHER COUNCIL BUSINESS

Moved by Councilman Taylor, seconded by Councilman Teifer, to receive and place on file the Dual Water Meter Review prepared by the DPS Director and the Mathematical Representation of Utility Rate Structure and Estimated Increases to Sewer and Capital Rates if Dual Water Meters Used, prepared by the City Controller.

Carried unanimously.
